THET MYAT NOE

UI / UX Designer & Web Developer

ABOUT ME

Hi, I'm Phueng — a creative and detail-oriented UI/UX Designer & Web Developer based in Singapore. I hold a Bachelor of Science with Honors in Computing Science from Coventry University via PSB Academy and have hands-on experience designing user-friendly interfaces through freelance projects and personal work. I'm passionate about crafting digital experiences that are both beautiful and intuitive, with a strong focus on the user at every stage of the design process.

WORK EXPERIENCE

2023 – Present  
Self-Employed | Remote, Singapore

Freelance UI/UX & Web Designer

- Designed modern, user-friendly websites for clients using Figma, Adobe XD, and Canva
- Built responsive websites with HTML, CSS & WordPress focusing on clean layout and smooth navigation
- Ensured mobile-friendliness, accessibility, and visual consistency across browsers
- Managed multiple projects simultaneously, delivering on time and within scope
- Create a Air Ticket application with Figma

SOFT SKILLS & STRENGTHS

- Creative Thinking & Original Design Ideas
- Problem Solving — finding smart solutions to design & coding challenges
- Self-Initiative — taking ownership from concept to completion
- Strong Communication — clear and warm across teams and clients
- User Empathy — designing with deep understanding of user needs
- Time Management — organised, reliable, and deadline-driven
